# Our 5 Year Learning Journey: Year 7

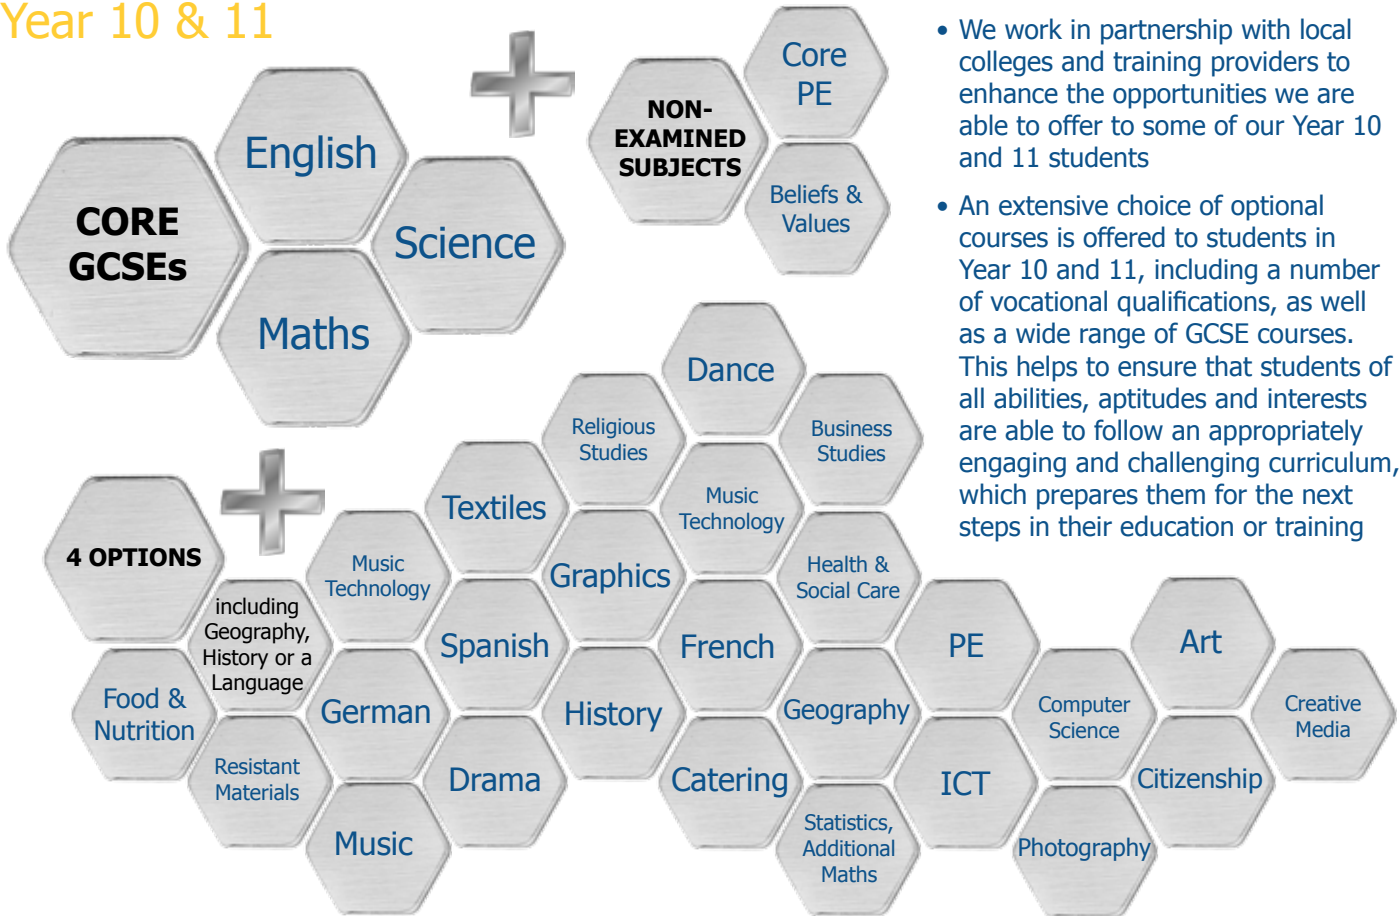

- A broad and balanced curriculum, including technology subjects and creative and performing arts subjects, as well as all of the English Bacallaureate subjects
- Year 7s have the opportunity to learn either French or Spanish, and many are able to begin a second foreign language - German, French or Spanish - from Year 8 onwards

- A staggered process of options from Year 8 to 9 enables students to make informed choices

# Year 10 & 11

- We work in partnership with local colleges and training providers to enhance the opportunities we are able to offer to some of our Year 10 and 11 students
- An extensive choice of optional courses is offered to students in Year 10 and 11, including a number of vocational qualifications, as well as a wide range of GCSE courses. This helps to ensure that students of all abilities, aptitudes and interests are able to follow an appropriately engaging and challenging curriculum, which prepares them for the next steps in their education or training
